Recreational Vehicles offer the opportunity to travel and see the country on your own terms. Airstream® Trailers are the Standard in towable RV's. With all that Airstreams offer exterior storage is an area that can be easily increased.

A great way to increase your exterior storage is to add an Airboard to the LP Cover.

Airstream Trailers traditionally are designed without slide outs (Except for the rare 28' Safari, or Limited 30/34)

So exterior storage is limited, therefore, any extra storage is considered prime real estate.

Airstream trailers are built with the minimalist theme. However, we still need a place to store what we do bring along for the adventure.

AIRSTREAM MODELS AND LIQUID PROPANE CAPACITY

Airstream Travel Trailers	Sizes	Propane Capacity	AirBoard Style	Exterior Storage WLD	Added Storage
	Classic 30' 33'	2 - 40 Pound tanks	40 Pound Plastic or Metal	(33) 13260 (30) 28210	400 Cu. Inches 3% & 2%
