## Happy Spring!

I hope everyone is making their reservations and prepping for the 2023 camping season. We have not traveled much in March but are getting ready and preparing the Airstream for travel! I thought now would be a good time to dust off the cobwebs and go over some things that you should check at the beginning of the camping season to help prevent accidents or malfunctions while traveling.

**First is the outside:** A good wash can help brighten up your airstream. As you wash, you can inspect and check for cracks in the seams and missing sealant on the roof, corners and sidewall seams. You can also then go inside to see if there are any water leaks that need addressed before travel. Check the windows for leaks as well or cracked seams. While on the roof, check your air conditioner and around skylights and fans, looking for cracks or lack of sealant. Next are the tires, the only thing between you and the road. Check the air pressure, tread levels, check for cracks or other forms of visible damage. Don't forget the spare! From there let's check the battery. Look for cracks or other forms of visible damage or corrosion. Clean the connections and check the charge and replace if necessary.

It is good to do a walk around and test all of your lights and turn signals. We actually do this before hitting the road, as my grandfather would always do. Next, open doors, windows, cabinets and awnings: this will help air out your Airstream and give you a chance to check for squeaky hinges or other issues. With the awning out, spray silicone on the rails as this helps it retract easier. Spray your awning with protectant if you feel the need. Check for tears or snags as well as the pull strap. Before we go inside, check your hitch. Check for anything loose and tighten, grease the coupler. While there, do a propane test by inspecting the hoses and connections for signs of wear & tear. Use a brush and soapy water to help check for any leaks in hoses and connections or use a flammable gas detector. Get these filled so you are ready for your first trip!

**Let's go inside!** Test your appliances, make sure the stove will light and your heat. Check your fans for any debris. Test the lights on the inside. Finally, you will want to dewinterize your water system by flushing the freshwater tank and lines. Drain the freshwater tank and check for any leaks underneath as you do this, rinse thoroughly and fill with clean water. As you rinse, turn on the faucets and showers to clear the plumbing of antifreeze. Some like to add freshwater system cleaner to disinfect and help with any lingering odors before filling the freshwater tank. Also check your water heater bypass

valve and check that water is getting into it and the temperature setting. This is a good time to also check the sewer hoses to make sure they are in good shape and the dump handles to prevent sticking. After the usual vacuuming and wipe down and of course repacking supplies you are on your way to safe traveling! Of course, you will have the random loose rivet or burnt-out light, but that comes with the adventures!

If you have any recommendations of products you use to help with the above steps, please share in the next newsletter!

#### Two notes:

- 1: Remember to RSVP for the Spring Volunteer Rally (flyer in newsletter)
- 2: If you are planning to attend the Region 2 rally let Terry Hauschild know at [haus599@comcast.net](mailto:haus599@comcast.net) as he and Wendy are planning to go and would like to know who from our club will also be attending.

See you down the road!

## News from the Region 2 President

by *RJ Marquette*, President, Region 2

Hello, everyone! I ended up taking off last month from doing notes because the end of the month caught me by surprise, and then I decided to wait until we had the Region 2 Rally registration open - which we now do! Here's the URL: <https://form.jotform.com/223457122866156>

The cost is \$35 Canadian per adult, kids under 18 are free. Canadian members can pay either by eTransfer (preferred to save money) or Paypal; us Americans can use Paypal to pay with a credit card. Paypal will do the conversion for us; when I registered, it worked out to about \$53 USD for Erica and I.

If you haven't already, don't forget to contact the campground, too. Sites are still available! The rally is June 2-6, but you can come early or stay late. We have more information about the campground and things to do in the area on the Region 2 Rally page here: [airstreamclub.org/region-2/2023-region-2-rally](https://airstreamclub.org/region-2/2023-region-2-rally). Also, if you are crossing the border, that page has links to information about the restrictions in place for food, pets, and weapons.

**In other big news: The 2025 International Rally will be in Region 2! It will be at the York Expo Center in York, Pennsylvania, August 23-28, 2025.** Mark your calendars! It's over two years away, but I'm already excited. Erica and I camp at the Expo Center every year for a gameroom show, and know the grounds and several of the buildings well, so this will be like holding International in our own backyard.

In February, Erica and I took our trailer to Raleigh, North Carolina for an outdoor hockey game. Our team lost the game, but we had a great weekend. Aside from a day of rain, the weather was good, although temperatures ranged from about freezing to warm enough to need the air conditioner. Traffic getting into the game was a mess, but it wasn't a problem for us - we just walked across the street and were in the parking lot of the stadium! See you next month!

## Dutch Oven Cinnamon Rolls

COOK TIME: 45 MINUTES

AT HOME PREP TIME: 30 MINUTES

TOTAL TIME: 1 HOUR 15 MINUTES

AUTHOR: FRESH OFF THE GRID

Swirls of cinnamon, baked to golden perfection, and topped with a light drizzle of icing, these Dutch oven cinnamon rolls are one of our favorite camping breakfasts.

### INGREDIENTS

#### DOUGH

- 2 ½ cups flour (345g)
- 3 tablespoons granulated sugar (50g)
- 2 teaspoons active dry yeast or 1 packet
- 1 teaspoon cinnamon
- ½ teaspoon sea salt
- ¾ cup milk preferably whole
- 4 tablespoons butter

#### FILLING

- 4 Tbsp butter softened
- ½ cup brown sugar (packed) (70g)
- 1 tablespoon ground cinnamon
- 4 cardamom pods crushed and husk removed

#### ICING GLAZE

- ½ cup powdered sugar
- 1 tablespoons milk
- 1 tablespoon melted butter

### INSTRUCTIONS

#### AT HOME

1. Combine the flour, granulated sugar, yeast, 1 teaspoon cinnamon, and ½ teaspoon salt to the bowl of a mixer. Add the milk and butter to a small bowl and warm in a microwave, 45-60 seconds, so that the butter is melted. Add the milk and butter to dry ingredients along with the egg.
2. Mix about 5 minutes on medium-low (4 on our Kitchen Aid mixer) until the dough is smooth and is no longer sticky. Transfer the dough to an oiled bowl and cover. Rest 10 minutes.
3. Meanwhile, prepare the filling. If using whole cardamom, crush the pods using a rolling pin and cutting board, or a mortar and pestle. Remove the outer husks and use the rolling pin or pestle to further grind the cardamom. Combine in a small bowl along with the cinnamon and brown sugar.
4. Turn the dough out onto a floured surface and knead 2 or 3 times to bring it into a ball. Roll out into a rectangle about 12" by 8". Spread the softened butter evenly over the dough, followed by the cinnamon sugar mixture.
5. Starting with one of the long edges, roll the dough into a tight cylinder. Cut into 8-10, 1" rolls using a piece of unflavored dental floss. Slide the floss

## Annual Membership Renewal Tidbit

If you joined the Airstream Club *after July 1, 2021*, your annual membership renewal date is based on your membership start date.

Any membership *prior to July 1, 2021*, your annual membership renewal date is January 1st.

Next time you renew your membership, you can set it to auto renew!

This will make it easier for you plus saves your club time and money.

Review/Update your membership information at [airstreamclub.org/current-members](http://airstreamclub.org/current-members)

## Welcome New Members!

*We look forward to meeting you both!*

under the roll, then wrap it over the top. Pull the ends in opposite directions to cut through the rolls.

6. Place the rolls into a Tupperware container that is lined with parchment paper. If you need to stack the rolls, place an additional piece of parchment paper between layers. At this time, you can also make the icing glaze: whisk ingredients together and transfer to a small container. Store the rolls and glaze in your cooler for up to two or three days

#### IN CAMP

1. Remove the rolls from the cooler and arrange them in a 4-qt Dutch oven. Cover the oven and let the dough rise while you start your coals or campfire.
2. Once the coals are ready, place seven in a circle and place the Dutch oven on top. Place an additional 16 on the lid. Bake for 30-45 minutes, until the tops are golden. Remove from heat.
3. Mix the icing ingredients together (if not done at home) and drizzle over the rolls. Enjoy a fresh cup of camp coffee!

# Winter Trip, Part 2

by Tim and Barb Palmer, #4031

We left York, PA on February 25, 2023 for a getaway to Florida, camping at three different locations.

The first one was in Clermont near Orlando for five nights. During that time we visited York friends who have moved to Zellwood Estates. Our next stop was Peace River RV Resort in Wauchula, where we stayed

for two weeks. From this campground we went to see a friend in Sarasota and friends living in Naples. One day we traveled to Bradenton Beach on the Gulf. We walked along the beach and had a delicious fish dinner on the outside deck of the Bridge Street Bistro (right, top). It was the perfect location to enjoy the sunset over the Gulf. Another day trip we made was to Plant City to attend the Strawberry Festival. We had previously ordered tickets to see Tommy James and the Shondells at the stadium. It was fun listening to the "Oldies"! Our third campground was Sherwood Forest in Kissimmee near Disney World. (We did not plan to go to Disney on this trip. We'll go at a later date with our family.) During our week we spent several days relaxing at the pool. On weekend afternoons they have a Tiki Bar that serves burgers, hot dogs and adult beverages and they also have live music. So much fun! Sherwood Forest was a great place to ride our tandem with 514 campsites. We ventured out one day to visit friends in Titusville, who took us to the Cape Canaveral Nature Reserve. We saw manatees, turtles and some beautiful birds and strolled along the Atlantic beach. Photo at right: Titusville on the Indian River Lagoon with Cape Canaveral launch pads in the background.

As I write this, we are now back in South Carolina and we will be going to Fort Mill, SC to visit with Barb's sister and her family before heading back home on April 2nd. This has been a wonderful winter adventure to a warmer climate! We are already looking forward to being snowbirds again next year!!

## Gladys R. Taylor (Wolff)

Gladys R. (Wolff) Taylor of Messiah Village, Mechanicsburg Pennsylvania and Dade City, Florida left us to be with Jesus on March 15, 2023. Born January 12, 1931, in Herminie, PA, she was the daughter of the late Albert W. and Ruth Ewig Wolff. In addition to her parents, she was preceded in death by her sisters, Wilma Martz, and June Fawcett.

Gladys was a beloved wife and mother who was adored by her husband, children, grandchildren, great-grandchildren, and everyone else who knew her. While their children were young, she and Clint took them camping throughout the lower 48 states and to the beach every year. When the grandkids were old enough, they got their turn to travel with Clint and Gladys. After retirement Gladys and Clint traveled to Europe, Australia, New Zealand, Fiji and throughout North America in their Airstream with WBCCI. They spent the last 30 years as snowbirds at Travelers Rest Resort and Golf Course (TR) in Dade City, Florida where Gladys was three-time golf champion, and was delighted to have four holes-in-one.

Gladys carefully tended to her flower gardens in Pennsylvania and Florida, sang in the TR church choir for 20 years, participated in many of the TR musicals, coordinated and ran the American Cancer Society's Walk for a Cure for over a decade in Florida and was a volunteer for Alzheimer fundraisers.

She is survived by her loving husband of almost 72 years, Clint (Clarence) Taylor; daughters Sandy Skufis Nelson and her husband Mark of Forest Hill, MD; Laurie Zentmyer and her husband Steve of Camp Hill, PA; Ruth Bordner and her husband Brad of Camp Hill; three grandsons, one granddaughter, and three great-grandchildren.

Gladys received her RN training at Presbyterian Hospital School of Nursing in Pittsburgh, PA. Prior to her retirement in 1987 she was employed by Polyclinic Hospital as the Coordinator of the Family Practice unit.

The family would like to thank the staff at Messiah Lifeways Asper Memory Care Unit and Donegal Neighborhood for the loving care they provided to Gladys the last three years.

A Celebration of Gladys's Life will be held on Sunday, April 30, 2023 at 2:00 PM at the Camp Hill United Methodist Church, 417 S. 22nd Street, Camp Hill, PA 17011. In lieu of flowers, memorial contributions may be made to the Alzheimer's Association- Greater PA Chapter, 2595 Interstate Drive, Suite 100, Harrisburg, PA 17110, or American Cancer Society, Capital Regional Unit, 3211 N. Front Street, Suite 100, Harrisburg, PA 17110.

Myers-Baker Funeral & Cremation Services, Camp Hill, has been entrusted with funeral arrangements.

**Modifications**

**Water Pump Controller**

by Hanno Jacobs

Are you annoyed by the hammering of the water pump in your Airstream? A fellow Airstreamer made a modification to his Airstream by installing a water pump controller. Here is a website that explains what it does, [www.IRVWPC.com](http://www.IRVWPC.com).

Based on his recommendation I got one and installed it. All I can say is, WOW, what a difference. You can hardly hear the pump running, even at low flow rates. Basically it monitors the water pressure and adjusts the speed of the pump motor to keep that pressure constant. No more on/off/on/off/on/off... with the associated noise. Plus it has various safety settings.

I have no vested interest in this company whatsoever but think it is a really good product. Should you have any questions you can feel free to contact me directly at [hanno627@gmail.com](mailto:hanno627@gmail.com).

**Installing a Bathroom Door Window**

by Walt Saylor

Our 2016 Flying Cloud did not have a window in the bathroom door. We were wishing it had after seeing other models that did. So I decided this was a fairly straightforward install and we ordered an exterior window with a white interior back frame.

Margaret ordered it from Colonial Airstream and it arrived quickly from the factory. First, I removed the door from the frame. I cleaned the window with a product recommended by Colonial that removed the grease smears and factory

worker fingerprints on the frosted glass. Using the window frame, I drew the shape onto a piece of tracing paper and transferred that line onto the door. We determined what height was going to work for us and measured. Next, I taped around the line to protect the door surface from scratches that would be caused by a jigsaw.

I drilled a wide hole to allow a starting point for the saw blade. I carefully cut out the shape that was transferred on to the door. It's a hollow core door and really easy to cut.

When the hole was cut out, I then placed the external window on the hall side of the door. Using the existing rivet holes in frame, I drilled pilot holes in the door. Each hole received a rivet, anchoring it in the door. Lastly, I fitted the white oval frame piece on the backside/bathroom side of the door, held in place with double-face tape.

I rehung the door and the window has stayed in place ever since. It gives enough light when you are in the bathroom so you don't feel like you're in a cave; we keep a nightlight on in the bathroom and it gives a nice glow through the window.

Email me at [saylorgraphics@comcast.net](mailto:saylorgraphics@comcast.net) with any questions.
