

UWAC Grand Buffalo Rally — July 2023

Hosted by Bonnie and John Ruskauff

UWAC had a great turn-out with a dozen or more trailers / motorhomes at the nearly completed Grand Buffalo RV Resort in Star Valley, Wyoming. The rally was held as an Apres International get together for UWAC club members and affiliates. One top highlight of the rally was a fascinating tour of the Aviat Aircraft manufacturing facility in Afton where they make Husky, Pitts and Eagle aircraft.

The group managed several get togethers but these were somewhat constrained as the campground had not been fully completed (landscaping not ready.) The club appreciates the Decker family (Airstream of Utah & Wyoming) for allowing us to utilize the facility for the rally even though completion of the campground had been delayed.

The club had several get togethers including lunch at Melvin Brewing in nearby Alpine, WY and an ice cream social the last night before departing. Another highlight was the beautiful hike led by Kelli and Ron Araujo up the Big Elk trail in the Caribou-Targhee National Forest. The wildflowers were in full bloom and the mountain stream a delight.

The rally included plenty of time for relaxing in a beautiful setting and recouping from the hectic week before when many of us attended the International Rally in Rock Springs (with classes by day and festivities by night.) Special thanks to Bonnie and John for their leadership roles in the club, but most importantly, for their friendship and Herculean efforts in getting rallies and events organized for the benefit of the club.

Here are pictures from our recent Grand Buffalo rally — hope you join us soon!! [p.s. - see the UWAC Facebook page for many more rally and activity photos!!]
