My husband and I joined the Airstream Club 10 years ago, and it has literally changed our lives. We met our dearest friends in the club: we travel together, rally together and laugh a lot together. It has also been an outlet for me to exercise my need to entertain and organize rallies (while my husband just rolls his eyes and starts loading up the truck). For me, it's all about adventuring and relaxing with people of like interests. It's been amazing.

We just finished our first Airstream Club Caravan. We arrived not knowing anyone and were a little nervous but social events had us quickly acquainted with each other. Activities were well-planned and fun and included many we would have missed if traveling on our own. After traveling for three weeks with the same people, we ended our trip with a sense of a new family.

Caravans are just one of the many benefits of the Airstream Club!
