May 2024

May's Rally was at Lake Wateree State Park, and it was a good time with 15 beautiful Airstreams attending, fellowshipping with 28 great friends. We unfortunately didn't have our normal "potluck Friday" which was missed by some, but we definitely made up for it with super long happy hours every night! We were happy to see Larry and Audrey Dobberfuhl and hearing about their travels and issues/fixing their airstream axels. Friday's activities were unbelievable as eleven of our finest decided to go on a kayak paddle on Lake Wateree. You can't keep this group still for too long. One of these kayakers had just had a knee replacement, a few others have issues swimming, and a few others were just not so sure about this team building activity, but they all made it back unscathed with tall tales to tell. Saturday's weather took a turn for the worse and we had a time trying to stay dry, but we made the best of it and in a way, it brought us even closer together. After pancakes, eggs, and sausage for breakfast, some left for more adventures. Truck loads went to Landsford Canal State Park to see the blooming Spider Lilies while others went shopping in Camden. Naturally, some of the men decided to toss horseshoes and we concluded those horseshoes were defective because they just wouldn't fly right. Our host(s) this weekend, Ronnie Buddin, Billy and Linda Gail Blackwell, and Jack Brooks, and guest helper Jing. The Kentucky Derby themed event was something for the books, including Mint Juleps and huge hats and all! Everyone had a great time cheering for their horse to win. Congratulations to the Narowski's for the win, make sure to report those winnings to the IRS.

I would like to recognize Kathy and Bill who decided early Sunday morning we needed just one more team building exercise and donated their Zip Dee awning to the cause. We are so fortunate to have Ronnie Buddin and a team of guys that will come together before you can say Lickety-split to see how quickly, safely, and professional we can help a fellow Airstreamer in need. A U-shaped awning arm was nothing for this group.

Until our next adventure, safe travels everyone.
