Total Eclipse Rallies April 7 – 11
in [Region 4] Greenville, Ohio
in [Region 5] Columbus, Indiana

It was a once-in-a-lifetime opportunity! Several club members were able to check off seeing a total solar eclipse from their Bucket Lists. Five units attended a rally in Ohio and one unit attended a rally in Indiana. The weather was warm and clear, the fellowship was fun and fascinating, and the multisensory experience of viewing the eclipse was very exciting.

Travel Teasers: The ABC's of America

Rolling rolling rolling! There's a lot of exciting things to see in our country. You can go as an individual family or you can join an ACI rally or caravan.

Here are some of the interesting and unusual nature-made and man-made places to see in the lower 48 that just might end up on your Bucket List.

Colorado [Region 11]: Going to Pagosa Springs will give you a triple event. It has the deepest mineral-enriched hot spring in the world. You can soak your tired body in the therapeutic pools and come out feeling refreshed. [Nature-made]

It is also near the scenic San Juan Mountains. They were made by volcanos and shaped by glaciers. [Nature-made]
There are old gold and silver mines you can still see there. [Man-made]

If you are adventurous, you can float down the San Juan River. [Nature-made]

Mesa Verde National Park is in Cortez. It is fascinating to see how some of the Pueblo people lived under a hanging cliff. Their gardens were on top of the Mesa. [Man-made]

I was traveling down the road with my Airstream and a rabbit ran across the road.
Phew! I missed it by a hair/hare!
He He He!

Regular Reminder: All club members can also join rallies and events held by other clubs all across the North America. To find out what else is going on, go to airstreamclub.org.

This is
how we
roll!

Until the summer travel season is over...
