Want to try something really unique?

- Check out Canada's Magnetic Hill! Head to Chartierville, Quebec, the first town north of the Route 3 border crossing. At the bottom of the hill, you will see a sign with directions to stop your vehicle, put it in neutral, then release the brake and your vehicle will begin to travel UP hill. Iron ore in the ground? An optical illusion? You be the judge!

Rally Events:

Corn hole tournament with PRIZES!

The attached brochure from the local Chamber of Commerce is filled with great ideas of places to go and things to do
