How to Use Courtesy Parking Powered by Harvest Hosts

Now that you've set up your Courtesy Parking Powered by Harvest Hosts account, you are ready to start planning your next adventure. Here are some useful tips on how to use the website and the app.

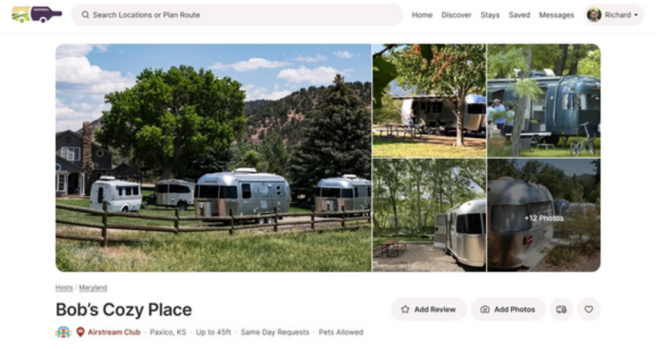

USING THE MAP

Each **red** pin with the ACI logo denotes a Courtesy Parking location. When searching for a Courtesy Parking location you have a few options:

- **Search bar at the top:** Search by the name of the host location or by entering a city or major landmark (national parks, etc.). You can also use the search bar to find hosts you've stayed with before or find a host close to your next stop.
- **Filtering the map:** If you'd like to find hosts that meet your travel preferences, filtering the map is the best way to do it! Filter to find hosts that offer same-day requests, electric hookups, extra nights, and more to get a list of all the hosts that meet your criteria. From there, click on a pin or a location from the list that appears on the lefthand side and click on the ***Host*** card to get to the host's full profile to learn more!

HOST PROFILES

The first thing you'll notice about the Courtesy Parking host profiles is how detailed they are. At the top, you'll see a gallery of photos. Scroll down to read the description, learn more about the Host, their rules, what they offer, get more details about their parking surface, read reviews, and more!

BOOKING STAYS

On the Host's profile, you'll be able to see their calendar and click the request a stay. You will be prompted to select dates and answer a few questions to complete the stay request. Once you receive an email confirmation that your stay was approved, you'll be able to see the host's address and contact them directly. Head to the **Stays** tab at the top to manage your stay requests, and use the **Messages** tab to contact your host if needed.

Happy Travels!
