

Hello

For anyone new to this newsletter, welcome!! We are planning on opening registration the first week of December. We will be sharing the exact date in the next week or so, as well as the finalized fees.

I thought I'd highlight the amazing campground where we will call home base.

[Aspen Crossing](#)

While I'm highlighting just a few unique features at Aspen Crossing, there are so many more! Overarching all of these great amenities are the incredibly cheerful, friendly, and helpful staff.

The Train

OK, you have to admit, where else can you walk from your campsite to hop onto a private train ride? For the train buffs in our group, yes, you can talk trains with staff and walk through the historic coaches during our train ride. Over 20 years ago, the love of Canadian Pacific and trains started a dream to share train experiences with people. Now visitors can experience the Polar Express, Champagne Brunch, a Wild West experience as well as [sunset rides](#) on 14 miles of private track. In the new year we will be sharing more information on the 2025 train schedule and options while you're "in town".

Swimming

Usually, campgrounds will put in a swimming pool, but Aspen Crossing created a mini-lake! Sunrise Lagoon with its lovely beach, offers you a great option for taking a dip, any time of the day. Set up the lawn chairs, bring out your book and floaty thing and enjoy a swim!

Food

Forget a little canteen attached to the campsite store...Aspen has multiple restaurants AND will deliver your pizza! How cool is that? First up we have the Diefenbaker car that serves great food in a unique setting. Imagine sitting in a train car that hosted prime ministers and dignitaries who moved Canada forward!

Let's not forget Berquist Tavern to quench a thirst. Situated in a historic house with a large patio to enjoy local beers, fantastic pizza and a uniquely Canadian drink - the Caesar (like a Bloody Mary, only better).

I love this idea!! Don't feel like leaving your campsite? Get your [food delivered!](#) The full Tavern menu is available for delivery!

Campground

How can I describe the campground and sites? FABULOUS!! We have reserved both back in and pull through sites in the "new" section that are easy to get in and out of. These sites are HUGE!! Of course, all the sites are full service. The owners have planted trees and bushes throughout the campground, giving privacy between sites. The original sites are now in the middle of a forest!

After learning about this, maybe you want to stay a few extra nights either before or after the rally? No problem! Once you have registered for the rally you will be emailed instructions on booking your campsite. At that time, you can reserve as many nights as you want.

Have a great week and remember to let your Airstream friends know about our rally!
