Our Mission Statement
South Florida Airstream Club is a welcoming family of Airstream owners who invite and mentor others to experience the adventure and fun of Airstream travel.

President's Message

Submitted By: Tim McDow, President

As I am writing this, Pam, Maizie and I have just returned from the Sarasota Holiday Rally. The rally was very well attended with 45 rigs. Unit 30 had a very large presence at the rally again this year. Concurrent with the rally, Bill and Darla Furst hosted our first of four Holiday Pop-Ups on Friday at Gecko's Grill & Pub.

The pop-up was well attended with 31 attendees, including Bob and Ginger Ealy, ACI Region 3 President. Bill received a total of \$305.00 dollars for his charity, Friends of Myakka State Park. We hope the remaining three pop-ups will also have great turn outs for their charities too.

I would like to thank all the board members, rally hosts and those who volunteered their time this year to make Unit 30 have a very successful year.

As I look back over the last year, our unit has hosted some wonderful events. The Solar Eclipse was a special highlight, thanks to David Robshaw's hard work and planning. I would like to remind all our members that this is your Airstream Unit and we need your input and support to continue to bring you a great rally schedule.

The 2025 schedule has some new themed rallies like Take Me Out to the Rodeo at River Ranch, Take Me Out to the Ballpark to see three spring training games, and the return of the Top of Georgia caravan and boon docking.

There is even some talk of maybe doing Maine and Nova Scotia after attending International Rally next year in York, PA. The 2026 calendar will be developed during the January board retreat.

Do you have any suggestions for a rally? Maybe you have a favorite campground or ideas for activities. Please reach out to a board member if you do.

Pam, Maizie and I would like to wish everyone and their families a wonderful and safe holiday season. Take some time to relax and spend quality time with your loved ones.

See you at the next Rally!

Tim McDow, South Florida Unit 30 President

SFAC Unit 30 Treasurer's Report, December 10, 2024

Submitted By: Linda Laviano, Treasurer

The club checking account balance is \$1,970.01. The savings account balance is \$11,329.54.
The total of both accounts is \$13,299.55

For this report, income resulted from monthly deposits from ACI for membership dues paid to International, the Pumpkin Fest Rally and Installation Dinner, and the Take Me Out to the Ball Park Rally. The club expenses were for the two rallies, the first of four Holiday Socials held in Sarasota, and the additional \$100 donation for the designated charity at the Pumpkin Fest Rally and Installation Dinner.

The Pumpkin Fest Rally and Installation Dinner Expenses totaled \$1,738.00 The total collected in rally fees \$2,188.00 resulted in a profit of \$450.00 which was donated to Friends of Myakka River State Park.

At the executive board meeting in October at Myakka River State Park, the board voted to increase charity donations made at each rally to include \$100 from the club treasury in addition to \$100 from the rally fee and any additional proceeds from each rally.

The donation to the Friends of Myakka River State Park totaled \$550.00.

The Club debit card was cancelled following a fraudulent Amazon charge of \$63.17. Following our complaint, US Bank credited the charge and issued a new debit card.

The Club fiscal year has been adjusted from the previous period of December 1 – November 30 to align with the calendar year, January 1 – December 30 at the suggestion of ACI Financial Director Alan Rabb. This change will bring Unit 30 fiscal year in line with headquarters and will require an additional report in December.

The report will be submitted to headquarters and published in the next addition of this newsletter.

Florida Joint Holiday Rally
Dec 4th – 8th, 2024
Sarasota Fairgrounds, Sarasota, FL
Submitted By: Emilio Caragol

This year the Sarasota Holiday Rally was hosted by the Suncoast Unit 129, Treasure Coast Unit 162, and the South Florida Unit 30.

The Rally Meet & Greet was a success with 45 Airstreams and approximately 90 people. The Sky Med presentation was informative, and they also sponsored the Pizza Dinner.

Tim Maxwell, Regional Director of Sales for Airstream, provided an overview of the current Airstream projects and the future state of the company. The Hot Air Balloon Glow and Laser Show lit up the sky with a great show.

Bill and Darla Furst hosted a Pop-Up at the Gecko's Grill & Pub in Sarasota where the participating group had great food, drinks and donated over \$300.00 for the Friends of Myakka State Park.

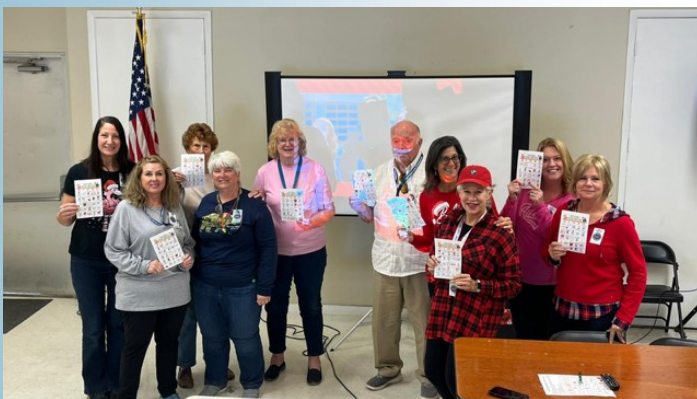

Bill and Darla also suggested a tour of the Siesta Key Rum Company. We had the opportunity to taste several rums made in small batches. The heart of their craft is how they use natural ingredients with an infused process. From the Toasted Coconut, Coffee, and Spiced Rums to their special release aged rums, there was something for everyone to enjoy.

Bill & Frances Hamblin and Karl Yeager gave presentations at the rally that covered Starlink and Power Management on the Road, How to Safely use a Contour Convection Oven in the Airstream and various helpful travel gadgets. The presentations were useful and informative.

The Catered and Complimentary Continental Breakfast, "Snow on the Mountain" (Oatmeal & toppings), and Italian Cook-off were all fantastic.

Linda Laviano hosted a Hallmark Movie Bingo game while David Robshaw showed us how to play Skittle Scatter, AKA "Viking Bowling", and the Rally had a Holiday Decoration Contest & Judging.

50 Years of Membership

President Tim McDow was pleased to present C. Keith Martin, BRN 29178, with his TENTH red star, a rare honor indicating 50 continuous years of membership in the WBCCI/WBAC/ACI. The short ceremony took place at the Airstreams and the Arts Rally in Vero Beach, FL on Friday, November 22, 2024. Congratulations, Keith!

If you have an idea for a new section to be created on the Club's Fun Times Newsletter, please send the information via email to the Editor at: ec9332@verizon.net

Airstreams and the Arts Joint Rally
November 21-24, 2024
Indian River County Fairgrounds
Submitted by: Linda Laviano

When Florida Treasure Coast Airstream Club, Unit 162 approached us about a joint rally at the Indian River Fair grounds during the Vero Beach Holiday Art and Craft Expo we jumped at the opportunity! The setting and the event proved to be a perfect match for our clubs. Approximately twenty-two rigs and forty-five members attended the weekend events which started off with a Thursday afternoon gathering for a heavy appetizer dinner.

Friday morning's cool, brisk temperature proved to be the perfect setting for Snow on the Mountain breakfast, AKA:

Oatmeal and Ice Cream with lots of toppings. A SkyMed presentation was followed by craft projects led by Robin and Steven Keen, round one of the Viking Bowling tournament organized by David Robshaw and prepping for the evening chili cook-off event.

Saturday started off with a yogurt parfait breakfast and visits to the Art and Craft Expo which was a short walk from our campsites. We had visits with members Beth and Bill Racavich who were staying in the area and the Viking Bowling tournament continued with strong showings in the final from Frankie and Donna Montagnino.

The Treasure Coast Unit installed their newly elected officers followed by a catered installation dinner and dessert. Congratulations to Joe and Sharon Moura, Dick Wheatly, Sue Smedly, Rosemarie Kistler, and Robin Keen who now hold new board positions with the Treasure Coast Unit in addition to being South Florida Club 30 affiliates!

Sunday morning before departing, we had bagels and a visit from Lucy and Kevin Comprosky. It was great catching up with all of our friends! The weekend activities of games, crafts, group meals, campfires, and visits with friends put us in just the right mood for the upcoming holidays.

Restoring a Classic: A Body-Off Renovation of a Vintage Airstream

Submitted By: Brian Smith, BRN 2666

Restoring a vintage Airstream to its original glory is an exciting journey into craftsmanship, history, and a bit of engineering. For those who are gluttons for punishment, taking on a body-off renovation provides the unique opportunity to learn new skills, empty your wallet, and question your life decisions. I bought a 1979 Sovereign 31' that had been sitting in a field for 20+ years. Here's how I did a body-off renovation on it, from drilling out the first rivet to the final polish.

Why Go Body-Off?

The “body-off” approach is no small task; it involves separating the body of the trailer from its frame, allowing access to parts of the Airstream that are otherwise unreachable. The 70s era Airstreams are known to have weak frames, and frame separation in the rear. Removing the body allowed me to address the frame completely out in the open.

I started by gutting what was left of the interior, and then I removed the inner skins and insulation from the walls. The next step was to remove the bottom rub rail where the body meets the frame to access the attaching rivets.

I purchased a rivet removal tool, but found it only mostly worked. It would get debris that would jam it up, or I would run across a slightly larger diameter rivet that I would need to then drill out after changing the drill bit to a larger one, and then back to the removal tool for the next rivet.

In a bout of frustration, I found the fastest and mostly foolproof method of removing rivets – a wood chisel. Woodworkers, I can hear the gasps from all the way over here. I used the absolute cheapest chisel I could get my hands on since I knew it would be detrimental to the chisel over time. Laying the chisel flat against the body with the tip of the chisel lined up with the edge of the rivet made for a quick WHACK! WHACK! with the hammer to pop the rivet head off. It's a *seriously* fast way to remove rivets without marking the aluminum!

Once the rivets around the perimeter were removed, I constructed a gantry system with some 4x4 posts. They don't have to be fancy; they don't have to be over-built – they just have to be a few feet taller than the Airstream is!

A couple of chain falls attached to the gantries and drop down through the front-most and rear-most vent openings is the perfect spot to lift from. I built a structure inside out of 2x4s that the chain falls would attach to. The body lifted easily.

The frame was worse than I had imagined. The entire rear 6' of the frame needed to be completely cut out and replaced. All but three outriggers (small sections of crossmember that go from the main frame rails toward the outside of the body) needed to be replaced as well. It was around this time I seriously considered taking this thing to the scrap yard a few miles down the road.

Two months later, the body was reattached, and I could begin the interior rebuild process. Since everything inside was wasted from the previous owner, I custom built everything from scratch. I kept the original basic layout due to the locations of plumbing drains and vents.

I wanted a “cabin on wheels”, so I chose tongue and groove cedar walls, live edge walnut counter tops, and the bare aluminum interior walls. (If I ever become a villain, I will make my foes strip the original 1970s wallpaper from Airstream walls!)

My plan from day 1 was to build this Airstream as something you could travel Full-Time in with zero issues. Here are some of the features I included to ensure a comfortable and resilient “cabin on wheels”:

10x 100W solar panels, 4x 12v 100Ah Lithium batteries, Renogy 3500W 48V Solar Inverter/Charger. I can run my A/C traveling to my next site hundreds of miles away on solar power.

Residential sized custom cabinets in the kitchen (6’ wide main countertop, 40” wide second countertop.)
10v appliances – Residential refrigerator, induction cooktop, combo microwave/convection/air fryer, mini-split HVAC, holding tank heaters.

Mini-Split HVAC – outside unit on rear bumper, inside unit above bed in the rear.
On-Demand water heater is the only propane appliance.

Peplink Balance One internet router with Starlink and Calyx (T-Mobile) internet providers.

When folks ask me about what I’ve done to it or how much work I’ve put into this thing, I have a boilerplate answer:

“The only things I have not replaced are roughly 70% of the frame, the aluminum skin, the glass, and the holding tanks.”

Trying to cover everything I’ve done would encompass way too much for a newsletter. If you want to see the nitty gritty details from day one, head over to my blog where you can see every step of the renovation – www.fortressofsoliddude.com

Oh – did I mention I completed it in 1 year and 1 month? While I was working full time?
I have christened it my, “Fortress of Solid, Dude!”

Unit 30 Technical Discussions

Simple Lithium Upgrade

Submitted By: Tim McDow

Are you thinking about upgrading to lithium? I always knew one day when my AGM batteries died that it would be the time for me to upgrade. But when would that day come became the question. Our trailer is 3 ½ years old and we have never abused our batteries and always have had the trailer connected to AC even in storage.

AGM batteries if maintained well should give you a good 4-5 years of service. But like your car, when they die, will you need replacements to continue your journey while on the road or can you have the luxury to order new Lithium and wait to have them installed. As I continued to see technology improve Lithium batteries in size and density over the years, I started to think more about the upgrade.

I also did some research on my 2021 trailer and found that I had a Lithium compatible converter already installed. Taking a proactive mindset and having maybe only one good year left on our AGM's, Black Friday deals caused me to make the upgrade. Being now able to remove the two AGM batteries weighing a total 120lbs and drop in a single 300AH Lithium weighing only 56lbs, made the upgrade super simple while tripling my battery capacity.

The battery I choose, Epoch 300Ah heated battery, has an 11 year warranty and made in the USA. This should make any issue I may have, simple to resolve. Though, I have seen China equivalent batteries for almost half the price. If you do by the China, don't count on any warranty.

So, my first rally was to the Holiday Rally in Sarasota. I turned off my converter on purpose to see how only charging with solar and the DC-DC would work and started our trip. The DC-DC from the truck and solar had the battery topped off to 100% on arrival. After the four days the battery got down to 86% with only charging with the 180W of solar on the roof. By the time I got back home, the battery was back up to 100% again. I must say, having the Lithium upgrade will provide reliable battery usage for a very long time.

The upgrade cost me only \$925 for the battery, about the same as a Battle Born 100Ah battery. Open your battery box and see how messy it looks. Now look after the upgrade, very clean and simple!

THE SECRET BEHIND THE MAGIC OF OUR RALLIES

South Florida Airstream Club Planning Guidelines

January 21, 2023

PLANNING TEAM:

The planning team will consist of the President, 1st VP, 2nd VP and Past President. This team will plan the master calendar dates keeping in mind that we want to extend each rally through the weekend to encourage attendance by members who may still be working. This team will identify the region of Florida that will be targeted for each of the rallies. This team will identify areas for future rallies within a **2 year time frame**. This team will solicit new camping venues from the members.

LOGISTICS TEAM:

The Logistics Team will consist of the 1st VP, the 2 one year Trustees, and 2 club members from different families. This team will develop the schedule for each rally. This will include the day, time of day for each activity and will also include free time. The schedule may be adjusted as the Action Teams share their suggestions.

One or more members of this team will visit the campground to assess arrival information or campground information that must be shared with the members. This team will work with the Communications Team (Fun Times, Facebook, Website) to create enthusiasm and to promote attendance at the rallies.

The Logistics Team will contact individual members to be in charge of one small activity at the rally. The objective is to involve members in a variety of activities at future rallies. This team will provide the Action Team with specific written job descriptions. This team will work with the Member Outreach Team to recognize new members and invite them to share their interests with the club members at some time during this rally.

ACTION TEAM:

One member (family unit) will be responsible for one small activity during a rally. The person organizing an activity may ask other members to help if needed. The idea is to have many others helping. This team will be provided a specific written job description.

MEMBER OUTREACH TEAM:

Team leader chooses 2 additional members for the team. Here are some of the important activities of this team.

- Contacts new members
- Phone call/email welcome to new members
- Introduces new attendees at the rally
- Recognizes birthdays and anniversaries through a phone call and at the next rally.
- Informs new members of Facebook page and privileges

COMMUNICATIONS TEAM

- **Fun Times Editor** email newsletter to all members
- **Directory Editor** keeps the membership list updated and sends a directory to new members.
- **Facebook Administrator** (chooses 2 members as manager assistants) to keep page updated with club information, monitors posts and enters new members to our page. Will keep the WBAC website up to date with club activities.

South Florida Airstream Club Event Schedule

Please note that dates are subject to change due to unforeseen circumstances.

The club's social media posts and your email inbox should be reviewed for schedule changes prior to making reservations.

2025 Rally Schedule								
<u>Dates</u>	<u>Description</u>	<u>Venue</u>	<u>Location</u>	<u>Owner</u>	<u>Site fee</u>	<u>Notes</u>	<u>Reservation window opens</u>	<u>ShowRunner</u> <u>CoRunner</u>
