

Something new ---Winegard's Wingman RV-Wing

Everyone loves new gadgets, and they are even better when they actually work! If you are looking to improve your TV reception (pulling in distant TV signals can be tough at times) you may want to give the new Winegard Wingman a try.

The new Winegard Wingman RV-Wing not only improves your Winegard Sensor batwing antenna's VHF/UHF performance (UHF up to 100%), but also pulls in free digital programming. This lightweight add-on attaches with four simple snap-on screws. Airstream part number 510788-201 retail \$26.95

Winegard Converter Box- if you have not purchased your Digital Converter Box give us a call we have the compact Winegard RCDT09A in stock. Airstream part number 510788-200 retail \$69.99

Both are available through our Airstream store 937-596-6111 ext. 7400 or ext.7418

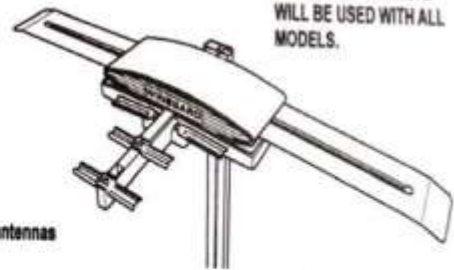

WINEGARD® Wingman™

RV-WING (white) GS-WING (gray) Digital Booster

No tools required for installation.

No wires to connect.

NOT ALL PUSH RIVETS
WILL BE USED WITH ALL
MODELS.

Parts Included:

- (1) Wingman unit
- (4) Push Rivet

Installation:

NOTE: Skip steps 1, 2 & 5 for GS Model antennas mounted to a permanent structure.

1. Raise the Sensor® antenna.
2. Remove the rubber bumpers from the bottom of the Sensor. This can be done with your fingers or pliers.
3. Line the holes in the Wingman up with the holes from which you removed the rubber bumpers. GS models will not have bumpers.
4. Insert the push rivets provided into these holes. Push the rivet tabs until they click and lock into place.
5. Lower Antenna.
