

Chassis and Underbelly Paint

A common question we receive is what color paint is used on the chassis and underbelly rolls on Airstream trailers.

Pewter

Gray Spray Paint PN: 360260-100. Paint for underskirt (under belly), rims and frame of Airstreams (1994 to 2016). Comes in a 12 oz. spray can and is recommended to be applied lightly and applying several coats.

2017 model Airstreams have switched to black as the color for underbelly, banana wraps and chassis.
