

Windshield Wiper Blades

A customer asked me at the Rally about the correct wiper blades for his 2004 Land Yacht Motor Home. He stated he had problems finding replacement blades that fit the contour of his windshield. The wiper blades for a 2004 Land Yacht are 28 inches long. They are a Trico product. The Airstream part number is 511419-105 for a complete assembly (arm and blade). The blades are \$33.05 each, meaning you will need to purchase two of them per Motor Home. I have had customers that have been able to find replacement blades at NAPA automotive stores.
